

## Write a Sports Report

### Task

Watch 10-15 minutes of highlights of your favourite sports team or watch a school/college fixture and write a summary of the game.

What was the most interesting moment in the game? This will feature in the introduction of your report.

Write an overview of the game. Do not feel like you must mention everything you noted down - concentrate on the most important events. Remember that it is an overview, not a blow-by blow account.

Quote from a player or manager:
